### **Featured Artist Bios:**

**Toni Lynn Washington:** Moments before Toni Lynn Washington takes the stage, you might see what appears to be a quiet, unassuming woman standing patiently out of the spotlight. But look quickly, because once the music starts, four decades of performing will kick into gear, and she'll soon take control of the room like a pool shark running the table. Special performers are gifted with the innate ability to throw that "switch". You know, that ignition of performance and presence that lets you leave your troubles behind, and immerse yourself in the sheer joy of sharing that comes from giving one's self over to the music. Toni Lynn Washington is just such an artist. Toni Lynn's career has blossomed in the last decade. Signed to Richard Rosenblatt's **Tone-Cool Records**, she has begun to see some reward for her efforts. She's been **nominated for two W.C. Handy Awards**, had her music used in feature film soundtracks, and appeared on **National Public Radio** in the company of **Etta James and John Lee Hooker.** She has recently recorded a performance for broadcast on **Voice Of America**, and will soon appear as the featured performer on the **House Of Blues Radio Hour**. Toni has enjoyed increasing acclaim and notoriety, and has been a featured artist at a number of prestigious festivals.
